

RIYA P LADWA

Computer Science & Engineering Undergraduate

Davangere , India • +91 93532 32225 • riyaladwa9@gmail.com • linkedin.com/in/riya-ladwa-b25275306

PROFESSIONAL SUMMARY

Computer Science & Engineering undergraduate with an 8.8/10 CGPA and hands-on experience developing AI-powered and full-stack web applications. Proficient in Data Structures, Algorithms, OOP, REST APIs, and JavaScript. Built and shipped 3 end-to-end projects demonstrating strong software engineering fundamentals and user-centric design. A collaborative team player with proven communication, leadership, and problem-solving skills gained through hackathons and technical events. Seeking a Software Engineering Internship to contribute to scalable, impactful products.

TECHNICAL SKILLS

Languages: C, Java, JavaScript (ES6+)

Web Technologies: HTML5, CSS3, JavaScript, REST APIs, AI API Integration, Local Storage API

CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

Tools: VS Code, Git (version control), Browser DevTools, GitHub

Soft Skills: Problem Solving, Communication, Teamwork, Leadership, Time Management, Adaptability

EDUCATION

Bachelor of Engineering — Computer Science & Engineering *Expected Jan 2028*

Bapuji Institute of Engineering and Technology (BIET), Davanagere, Karnataka | **CGPA: 8.8 / 10 (Top Academic Performer)**

Coursework: Data Structures & Algorithms · OOP · DBMS · Operating Systems · Computer Networks · Design & Analysis of Algorithms

PROJECTS

StudyHub AI — AI-Powered Learning Assistant *HTML5 · CSS3 · JavaScript · AI API*

- Engineered an AI-powered student assistant integrating a third-party AI API for real-time natural language Q&A, delivering personalized academic support across multiple subjects.
- Built a responsive, mobile-first interface using HTML5/CSS3, improving accessibility across devices; applied modular JavaScript (OOP) for scalability and maintainability.

ATS Resume Analyzer — Resume Optimization Tool *HTML5 · CSS3 · JavaScript*

- Developed a client-side resume analysis tool with custom parsing algorithms that evaluate 10+ criteria — formatting, keyword density, and ATS compatibility — generating an actionable improvement score.
- Designed an interactive results dashboard surfacing keyword gaps and structural recommendations, enabling users to optimize resumes for ATS pass rates.

Task Manager Pro — Full-Stack Productivity Application *HTML5 · CSS3 · JavaScript · Local Storage API*

- Built a responsive task management app with full CRUD functionality and real-time state management in vanilla JavaScript, persisting data via the Browser Local Storage API with zero external dependencies.
- Delivered a clean, accessible UI with dynamic task filtering and status toggling, achieving fast load times and cross-browser compatibility.

CERTIFICATIONS

- Artificial Intelligence — Foundations of AI, machine learning concepts, and practical AI application development (2024).
- Data Structures and Algorithms — Core DSA techniques: arrays, linked lists, trees, graphs, sorting, searching, and dynamic programming (2024).

ACHIEVEMENTS & EXTRACURRICULARS

- Maintained 8.8/10 CGPA — consistently among top academic performers in the CS&E program.
- Solved 100+ DSA problems on LeetCode / competitive programming platforms, focusing on arrays, trees, graphs, and dynamic programming.
- Demonstrated leadership and teamwork during hackathons and technical workshops — driving team problem-solving and delivering working prototypes under tight deadlines.
- Continuously building skills in software engineering best practices, version control (Git), and agile development methodologies through self-directed learning.
