

RIYA P LADWA

Software Development Engineer (SDE) Intern Candidate | Full-Stack & AI Application Development

Davanagere, India | +91 93532 32225 | riyaladwa9@gmail.com | linkedin.com/in/riya-ladwa-b25275306 | github.com/riyaladwa

PROFESSIONAL SUMMARY

Computer Science & Engineering undergraduate (CGPA: 8.8/10) specializing in full-stack and AI-integrated software development with React.js, Next.js, Node.js/Express, Java, Python, and REST API design. Proven ability to design and ship end-to-end applications spanning frontend, backend, database, and AI/LLM integration, with a strong foundation in Data Structures & Algorithms (100+ LeetCode problems solved), Object-Oriented Programming, DBMS, Operating Systems, and Computer Networks. Experienced in building scalable, production-oriented systems including GuardianAI, Civic Twin AI, and Task Manager Pro, with hands-on exposure to JWT authentication, RESTful API architecture, cloud databases, and version control workflows using Git/GitHub.

TECHNICAL SKILLS

Languages:	Java, Python, JavaScript (ES6+), TypeScript, C
CS Fundamentals:	Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks, Design & Analysis of Algorithms
Web & Frontend:	React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive & Cross-Browser Design
Backend & APIs:	Node.js, Express.js, RESTful API Design, JWT Authentication, Middleware Architecture
Databases:	MySQL, MongoDB, Supabase (PostgreSQL), Firebase
AI & Integrations:	Gemini API, OpenAI API, Fetch API, LLM-Powered Application Design
Tools & Practices:	Git, GitHub, Postman, Agile/Scrum Fundamentals, Software Development Life Cycle (SDLC), Debugging & Testing

EDUCATION

Bachelor of Engineering — Computer Science & Engineering, BIET, Davanagere, Karnataka	Expected Jan 2028
CGPA: 8.8/10 Relevant Coursework: DSA, OOP, DBMS, Operating Systems, Computer Networks, Design & Analysis of Algorithms	
Second PUC (Class XII), Karnataka	Percentage: 97%

PROJECTS

GuardianAI — AI-Powered Multimodal Scam Detection Platform

React.js, Next.js, TypeScript, Tailwind CSS, Node.js/Express, Gemini API, OpenAI API, Supabase, MongoDB

- Architected and engineered a full-stack cybersecurity platform that analyzes images, video, voice, email, SMS, URLs, and documents to detect and flag potential scams in real time.
- Designed a modular safety dashboard with threat visualization and a digital safety-scoring system, decoupling UI, API, and data layers to improve maintainability and scalability.
- Implemented secure JWT-based authentication and RESTful endpoints to orchestrate communication across frontend, backend, database, and AI-model workflows.

Civic Twin AI — AI-Powered Urban Digital Twin

React.js/Vite, JavaScript, Supabase (PostgreSQL), Google Maps API, AI/LLM APIs

- Developed an interactive urban digital-twin platform enabling visualization of city conditions and AI-assisted predictions, alerts, and scenario simulations.
- Integrated Google Maps-based city visualization with a Supabase (PostgreSQL) backend to manage cities, predictions, alerts, simulations, and user settings at scale.
- Designed a clean, minimal UI/UX focused on actionable civic insights, prioritizing usability and scalable city-level data workflows.

Task Manager Pro — Full-Stack Productivity Application

React.js, JavaScript, Node.js/Express, MongoDB, Supabase (PostgreSQL), Gemini API

- Built a full-stack task management application featuring CRUD operations, RESTful APIs, persistent storage, and real-time UI synchronization.
- Implemented JWT authentication and middleware-based route protection across modular auth, dashboard, and task views to enforce secure access control.
- Engineered reusable, component-driven frontend architecture and structured asynchronous data flows to improve maintainability and performance.

CERTIFICATIONS & ACHIEVEMENTS

- Data Structures & Algorithms:** Solved 100+ problems on LeetCode across arrays, trees, graphs, sorting/searching, and dynamic programming.
- Certified in Artificial Intelligence (2024) and Data Structures and Algorithms (2024).
- Academic Excellence:** CGPA 8.8/10; scored 97% in Class XII (Karnataka); active participant in coding competitions and hackathons.
